chaleur

## Fonctions standards ultérieures

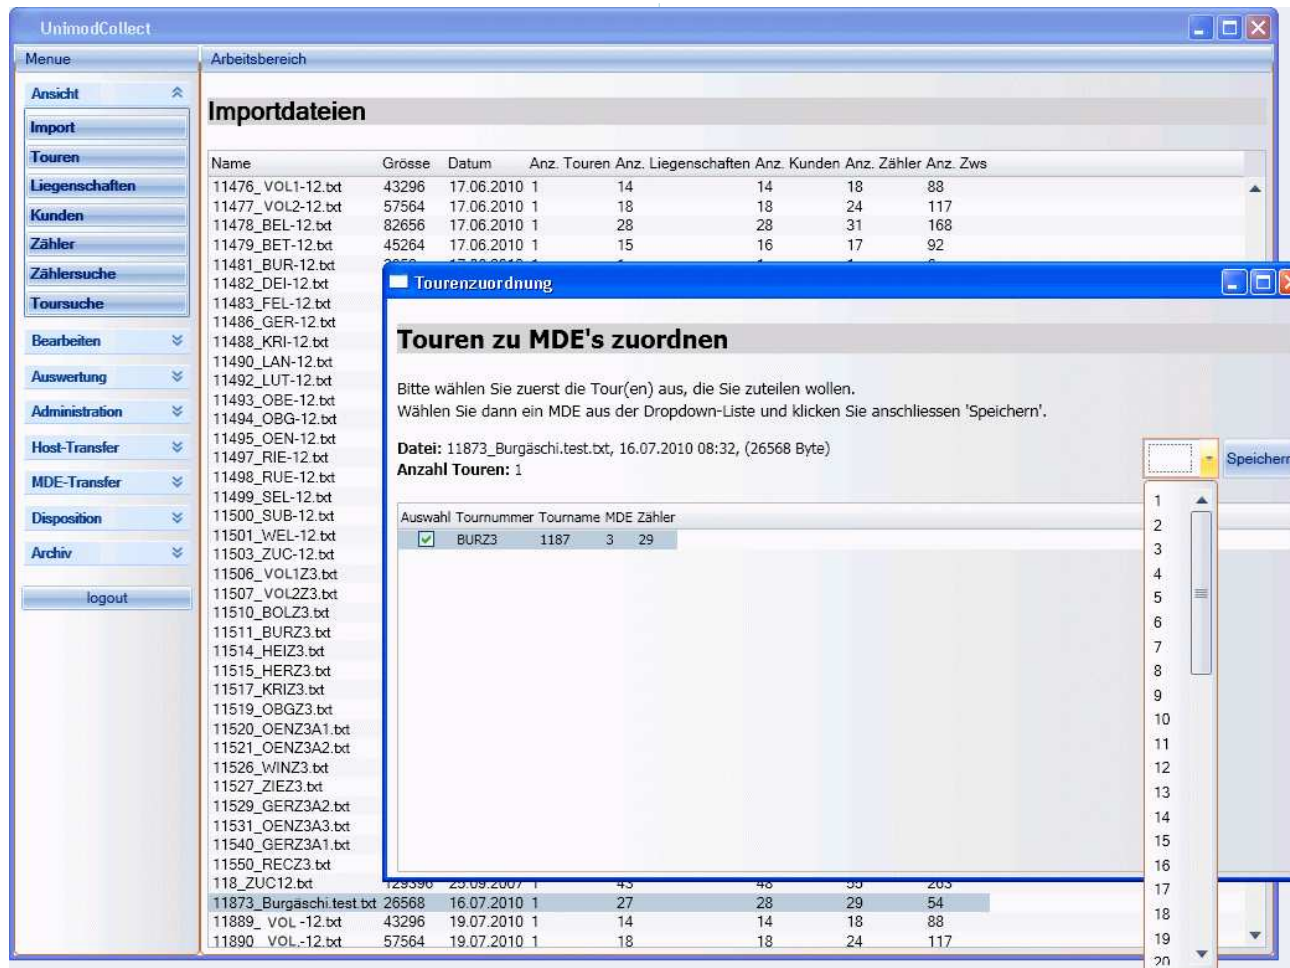

- Contrôles de vraisemblance
- Nouveaux compteurs hors tournée  
Blocage des compteurs
- Saisie manuelle
- Fichiers de données brutes
- Analyses
- Valeur de pointe

- Planification des tournées
- Dépôt de clef
- Accord absence
- Changement Compteur
- Archivage

## visualisation

The screenshot displays the UnimodCollect application window. On the left is a menu with options like 'Ansicht', 'Import', 'Touren', 'Liegenschaften', 'Kunden', 'Zähler', 'Zählersuche', 'Toursuche', 'Bearbeiten', 'Auswertung', 'Administration', 'Host-Transfer', 'MDE-Transfer', 'Disposition', 'Archiv', and 'logout'. The main area shows a table titled 'Importdateien' with columns: Name, Grösse, Datum, Anz. Touren, Anz. Liegenschaften, Anz. Kunden, Anz. Zähler, and Anz. Zws. A dialog box titled 'Tourenzuordnung' is open, showing 'Touren zu MDE's zuordnen' and instructions to select a tour and an MDE. It displays 'Datei: 11873\_Burgaschi.test.txt, 16.07.2010 08:32, (26568 Byte)' and 'Anzahl Touren: 1'. A table in the dialog shows a selection for 'BURZ3' with 3 MDEs and 29 Zählers.
